No sophisticated medical facilities are available in the Arctic, Antarctic, and may not be available on our other itineraries or locations to which Wild Focus travels. Although each ship-based trip (vessel) carries a limited infirmary with basic medications and equipment, we ask you to complete this confidential medical report so that all due care may be provided. Expedition travel is intended for persons in reasonably good health and with full mobility. Passengers and travelers who are not fit for long trips for any reason, including mobility issues, disability, heart or other health condition are advised not to join the tour, which would entail an unreasonable risk to your health and to the enjoyment of all those aboard. Should any such condition become apparent, the Company reserves the right to decline or accept or retain you and any other passenger at any time before or during the trip.

I attest I am in good general health, and capable of performing normal activities on this expedition. I further attest that I am capable of caring for myself during the expedition, and that I will not impede the progress of the expedition or the enjoyment of others aboard. I understand that this expedition will take me far from the nearest medical facility and that all expedition members must be self-sufficient. With that understanding, I certify that I have not been recently treated for, nor am I aware of, any physical or other condition or disability that would create a hazard to myself or other members of the expedition. I agree that should there be any change to the information I have given herein or to my physical or medical condition that I will notify Wild Focus Expeditions and, if requested, provide an up- to-date version of this completed form. I agree that any failure to provide full and complete medical information to Wild Focus Expeditions may result in the cancellation of my booking without further compensation payable to me for any loss.

I declare the answers to the above questions are true and complete. I agree to this information being made available to Wild Focus Expeditions.

I have read the trip details and am familiar with both the physical demands, and the remote location(s) of this trip, and the fact that this expedition may travel far from the nearest medical facilities.
